

Paradigm Pictures & Touching Base Inc invite you to a special fundraising screening of *The Director's Cut* of **Scarlet Road** at the NSW Parliament

Directed and co-produced by **Catherine Scott**
Produced by **Pat Fiske**

Impassioned about freedom of sexual expression, Australian sex worker Rachel Wotton has become highly specialized in working with clients with disability. Rachel's philosophy, that human touch and sexual intimacy can be some of the most therapeutic aspects to our existence, is making a dramatic impact on the lives of her clients.

*While Rachel's clients give a glimpse into their sexual self-discovery, **Scarlet Road** follows Rachel as she strives to increase awareness and access to sexual expression for people with disability. Rachel is also an active campaigner for both policy makers and the general public to recognize that sex work is work.*
